## John Gower, poète anglo-normand Perspectives linguistiques sur *Le Myroure de l'Omme*

- **Publication type:** Article from a collective work
- **Collective work:** [Anglo-français : philologie et linguistique](#)
- **Author:** Ingham (Richard)
- **Abstract:** Did John Gower adopt the traditional forms of Anglo-French ? Or did he modify them – as is often thought – to adapt to the established norms of standard written French ? A close analysis of phonetic, morpho-phonologic, and syntactical aspects of the language of *Myroure de l'Omme* reveals that this eminent representative of the last phase of Anglo-French literary tradition did not turn his back on the *faus franceis d'Angleterre*.
