Sanches et Descartes Subjectivité et connaissance réflexive au temps des sceptiques

- **Publication type:** Journal article
- **Journal:** [Bulletin de la Société internationale des amis de Montaigne 2016 – 2, n° 64 . varia](#)
- **Author:** Paganini (Gianenrico)
- **Abstract:** Sanches contributed to the birth of the modern subjectivity: it stressed the personal feature of the sceptical experience, against the impersonal *phainetai* of Sextus and it overcame the scholastic objections against the reflective knowledge. Thus, Sanches paved the way to a more positive assessment of introspection; by contrast, his own anti-metaphysical approach was an epistemological obstacle that prevented him from proceeding towards a science like that based on the Cartesian *cogito*.
