Approbation des censeurs et politique dévote par le livre (xvii^e siècle)

- **Publication type:** Article from a collective work
- **Collective work:** [Censure et critique](#)
- **Author:** Schapira (Nicolas)
- **Abstract:** This article analyzes the various forms and uses of approbations. Considered as an element of printed books, the approbation appears less as a tool of control, than as a means of action with books. I study the impact of these many actions on the institutions in the name of which they take place – royal and ecclesiastical censorship, and more broadly the Church itself.
