Ce qui reste du représentable dans l'écriture beckettienne Le fragment et l'épreuve du pire

- **Publication type:** Article from a collective work
- **Collective work:**

- **Author:** Della Casa (Martina)
- **Abstract:** Through the methodical application of a combinatory logic of excess and exhaustion, Beckett makes of the fragment the minimal expression of modes of writing and thought which manage to deploy their unfinished and fragile state but also their tenacity and resistance faced with a sublime end which threatens them while never materialising. Beckett's fragment is examined as an ambivalent entity through which writing and thought manage to undo and reinvent themselves at the same time.
