Discours sur l'anatomie du cerveau (1669)

- **Publication type:** Book
- **Author:** Sténon (Nicolas)
- **Scientific editor:** Andraut (Raphaële)
- **Abstract:** The *Discours sur l'anatomie du cerveau* , published in Paris in 1669, provides an evaluation of much-debated scientific knowledge of the time. First deployed polemically against Cartesianism, it was later read as a manifesto in favour of the rigorous analysis of «the machine of the human body».
