- **Abstract:** It is generally assumed that political scepticism is either reducible to conformism and conservatism or instead conceals subversive ideas. We intend to show that it can exist as a fully-fledged form of political commitment. Drawing on Montaigne's *Essais*, and in opposition to Machiavelli, it is argued that scepticism approaches politics from the point of view of the common man in search of an appropriate « distance » : between the public and the private, but also with respect to circumstances.
