 - [2016 - 1, n° 1](#)
 - [. Le texte à venir](#)
- **Author:** Gilbert (Jacques Athanase)
- **Abstract:** This article questions the belief in the predictions and recommendations produced by algorithms. To what extent is a narrative and, more generally, a transmission able to integrate an algorithmic environment? Does this entail a particular new development of old forms of literacy and numeracy or a deeper transformation of the regime of memory?
