- **Author:** Guichard (Éric)
- **Abstract:** Jack Goody is a British anthropologist who died on July 16, 2015. He had many different interests, but they were united by a dual approach: a profound universalism that was never denied and a curiosity about the supposed oppositions between technique and culture. In detailing these points, we show the fertility of his thought and also the effectiveness of his contributions for those who want to understand the Internet.
