Études Stéphane Mallarmé

Reconsidération de la notion mallarméenne de la « tragédie de la nature »

- **Publication type:** Journal article

- **Author:** Tachibana (Fuhita)
- **Abstract:** This article considers Mallarmé's adaptation of G. W. Cox's *Mythology* with particular reference to phrases deliberately omitted from the original and others added by Mallarmé, himself. This leads to a re-examination of Mallarmé's belief in the "Tragedy of Nature" as well as the contentious nature of mythological metaphord.
