Études Stéphane Mallarmé

Loïe Fuller vue par ses contemporains. Fée, artiste ou « figurante » ?

- **Abstract:** “Magically unreal”, “enchanting”, “being of light”: these are some of the epithets attributed to Loïe Fuller by the Symbolists. On a stage devoid of any decor, the American dancer amazed her contemporaries by dancing in swathes of shimmering material, thus creating a new kind of spectacle in which the body disappears behind a wall of color and light, creating pure suggestion.
