Green investments and sustainable healthcare systems

- **Publication type:** Journal article
- **Journal:** [European Review of Service Economics and Management / Revue européenne d'économie et management des services 2016 – 1, n° 1 . varia](#)
- **Authors:** Navarro Espigares (José Luis), Martín Segura (José Aureliano)
- **Abstract:** This work addresses the healthcare systems sustainability objective from the perspective of reducing the demand for health services. Cooperation across industry sectors is a crucial issue in achieving healthier populations that demand less health care. This research work poses the question: how are green-investments affecting health and healthcare systems sustainability? Thus, we will relate the financial impact of investments in eco-efficient technologies with healthcare costs and vice versa.
