Récits de vie, stratégies narratives et construction de la masculinitéLe cas des exilés germanophones en Palestine/Israël après 1933

- **Publication type:** Article from a collective work
- **Collective work:** [Fictions du masculin dans les littératures occidentales](#)
- **Author:** Farges (Patrick)
- **Abstract:** This article is based on the life narratives of two German Jews (« yekkes ») in Israel, who inherited specific models of pre-1933 Jewish masculinity which incorporated assimilation, virilisation, marginalisation, and potential effeminacy. What sort of narrative strategies did they adopt in order to (re)construct their masculine identity after migrating ? The question is particularly pertinent given the « virile » values of force and defence central to the construction of Israeli national identity.
