La possibilité de la nouvelle reconnaissance de l'espace et l'art olfactif japonais

- **Publication type:** Article from a collective work
- **Collective work:** [L'Art olfactif contemporain](#)
- **Author:** Iwasaki (Yoko)
- **Abstract:** The frequent recourse to smell in installations has prompted an examination of this type of contemporary art and an identification of its specificity. This article shows that installation is doubtless the form of expression most suited to an art based solely on perfume, and demonstrates the decisive role played by smell in the recognition of the space which lies at the heart of Japanese art.
