De l'histoire à la rhétorique Les recueils d'exempla cisterciens du Moyen Âge tardif

- **Publication type:** Article from a collective work
- **Collective work:** [L'Œuvre littéraire du Moyen Âge aux yeux de l'historien et du philologue](#)
- **Author:** Smirnova (Victoria)
- **Abstract:** This article questions the valorisation of medieval works in their capacity as objects of modern research. The author argues that studying late Cisteric collections, largely neglected by researchers because of their assumed lack of originality and “Cisteric content”, can be fruitful from the historical as well as literary point of view, as long as the evolutionary model of ascension, peak, and decline is rethought and transcended.
