- **Author:** Ponce (Esteban)
- **Abstract:** It is vain to look for Diderot's own position in the discussion of philosophical sects in the chestnut alley in *La Promenade du sceptique*. The author proposes a new reading of the second part which relates it to the *Discours préliminaire* in the *Encyclopédie* and suggests that the debate and confrontation between arguments have the function of dramatizing a new model of philosophical practice. Diderot seeks to alter the course of philosophy.
