La politique de Georges Bataille

- **Publication type:** Article from a collective work
- **Collective work:**
[La Part maudite de Georges Bataille](#)
[. La dépense et l'excès](#)
- **Author:** Fautrier (Pascale)
- **Abstract:** To the foundations of humanist thought – moral and political economic – Bataille juxtaposes a “realistic” foundation : justify the general elevation of the standard of living and social spending not by means of a supposed equilibrium between needs and resources, but by taking into account the structural nature of the “unproductive expenditure” and its transformation into a deadly drive when contradicted or prohibited. The philosopher proposes a more radical version than Freud of “civilizational malaise”.
