- **Abstract:** Bataille privileges the excessive depense against the utilitarianism, and he founds therefore a philosophy of the “hétérologie” which valorizes myth, sacrifice and sexuality, but also the negative theology and the apophatism. The “athéologie” is a mystic which consider the God’s death to be the truth of the Deity, because this one is not presence but absence and annihilation. The “part maudite” is the journey to the very end of man, which is the very end of God.
