Le Marché autrement Marchés réels et marché fantasmé

- **Publication type:** Collective work
- **Editors:** Hillenkamp (Isabelle), Servet (Jean-Michel)
- **Preface writer:** Roche (Daniel)
- **Abstract:** Has the crisis happened because our market is too extensive? Or too restricted? This book shows that the principles of competition and private property can only function when they are based on commons, and when associated with other principles. There are diverse types of markets. Not all are emancipatory.
