## Du *fair play* au sens de la justiceGénéalogie de la morale rawlsienne

- **Publication type:** Article from a collective work
- **Collective work:**  
[Le Sens de la justice, une « utopie réaliste » ?  
. Rawls et ses critiques](#)
- **Author:** Spector (Céline)
- **Abstract:** This contribution distinguishes three characteristics of the sense of justice : a sense of fair play, a figure of practical reason, similar to the Kantian good will transposed into the domain of social bonds, and, finally, an affect derived from self-love, associated with love, friendship, and confidence, in the vein of Rousseau. This article shows why the “Rousseau-Kantian” synthesis elaborated by Rawls is a fragile hybrid.
