À l'ombre des *Prostituées philosophes*

- **Publication type:** Article from a collective work
- **Collective work:** [Leslie Kaplan](#)
- **Author:** Bernard (Élisa)
- **Abstract:** *Les Prostituées Philosophes*, published in 1997, is the second volume of the *Depuis maintenant* cycle. Kaplan shows life as a flux which moves through bodies and spaces. Bodies and spaces are the receptacles for this vital fluid. The language of the author, because it seeks to approach the felt reality of the body, increases in materiality and thickness itself. Leslie Kaplan distances language from its blinding intellectualness in order to help it grow and dance in the shadow of the *Prostituées philosophes*.
