## Orages, tempêtes et brouillards À propos de quelques phénomènes naturels dans les chansons de geste du xiv<sup>e</sup> siècle

- **Publication type:** Article from a collective work
- **Collective work:** [Motifs merveilleux et poétique des genres au Moyen Âge](#)
- **Author:** Kullmann (Dorothea)
- **Abstract:** This article seeks to understand the relationship with the marvellous typical of fourteenth-century *chansons de geste* by analysing the way in which they represent natural phenomena (storms, tempests, and fog). Inspired by genres foreign to the epic universe, and drawing on the heritage of earlier *chansons de gestes*, these late epics distinguish themselves through their tendency to demystify meteorological phenomena which are attributed less to a supernatural power than a natural source.
