Une « critique intégrée » des *nous*

- **Publication type:** Article from a collective work
- **Collective work:** [Nathalie Quintane](#)
- **Author:** Leplâtre (Florine)
- **Abstract:** This article begins with Quintane's theoretical texts, which formulate the project of “exploding the pronoun ‘ *nous*’ like you dissect a frog”. It observes the way in which this project is realised in six works where enunciative instability puts the elasticity of the pronoun “*nous*” to the test: it is embodied in illusory communities and carries readers along with it, sometimes despite themselves.
