- **Author:** Jousse (Anne-Laure)
- **Abstract:** Our research concerns the study of neology in pamphlets. The corpus we worked on is mainly composed of racist and antireligious texts. After a brief analysis of the creativity in pamphlets, we focus on lexical creativity i.e. neology. We set out a typology from a morphological and semantical point of view. Then we will look at the roles and functions of neologisms in the particular rhetoric of pamphlets.
