Roland à Saragosse parodie-t-il la courtoisie ?

- **Publication type:** Article from a collective work
- **Collective work:** [Parodies courtoises, parodies de la courtoisie](#)
- **Author:** Kullmann (Dorothea)
- **Abstract:** This article aims at illustrating the problematic character of modern definitions of parody when applied to medieval vernacular literature. A case study of the courtly episode of *Roland à Saragosse* shows that the hypo-text must belong to the same genre, while ridicule and other comical elements do not appear to have a specific target. Many of the effects that might be construed as parodic may in fact be due to common epic techniques, cyclical constraints, the foreign context, or the requirements of public performance.
