Le cheval volant dans *Cléomadès* et *Méliacin* De la merveille orientale au prodige mécanique

- **Publication type:** Article from a collective work
- **Collective work:** [Poétiques du voyage aérien dans la littérature](#)
- **Author:** Uhl (Patrice)
- **Abstract:** Around 1285, Adenet le Roi in *Cleomadés* and Girart d'Amiens in *Méliacin* both developed the plot of “The Enchanted Horse”, a tale from the *Arabian Nights*. While there is scarcely any discussion of the mechanics of the flying horse in the Arabic version, Adenet and Girart pay particular attention to the description of the machine, and the marvel of the magical horse is eclipsed by the extraordinary mechanics of the automat. They thus render a marvellous Oriental theme more banal in order to integrate it into the imaginary of their time.
