De la réticence au criLa gamme du silence dans la tragédie grecque

- **Publication type:** Article from a collective work
- **Collective work:**
[Silence et sagesse](#)
[. De la musique à la métaphysique : les anciens Grecs et leur héritage](#)
- **Author:** Perceau (Sylvie)
- **Abstract:** The intrusion of silence into theatrical material, in which everything is to be spoken aloud on stage, immediately seems paradoxical. On the tragic stage, the silence of *pathos*, at first invisible for spectators, is not only described but is made into words, *poeticised*, rendered visible in the sonorous flow of language and renders the absence of rational speech material.
